EXPERIENCE

Skill Distillery • Assistant Instructor • January 2022 - Current

- Lead lessons as an instructor at a Full-Stack Java bootcamp.
- Work with teams of students to troubleshoot and improve portfolio projects.
- Tutor students in one-on-one lessons to cement difficult concepts.
- Review failed tests and weekend projects with students to improve understanding.

Skill Distillery • Student • July 2021 - November 2021

- Applied MVC pattern using Spring Boot and Spring MVC.
- Performed full CRUD operations on a relational SQL database of my design.
- Incorporated Front-End designs with Angular, JavaScript, Bootstrap, HTML, and CSS.
- Applied Test Driven Development and unit testing.
- Tested web routes using Postman.
- Collaborated in an Agile team incorporating SCRUM meetings, Git/GitHub, Trello, and Pair Programming.
- Released code in one week sprints.

The Home Depot • Specialty Manager • April 2018 - April 2022

- Responsible for sales, operations and customer experience for several departments.
- Coached, mentored and developed team members, elevating team performance.
- Improved departments' sales from bottom 10% to top percentile in region.
- Took initiative to lead teams for major sales events and inventory counts.

The United States Air Force • Intelligence Analyst • August 2015 - April 2018

- Collected, evaluated and reported signals intelligence.
- Processed intelligence into written products and reports
